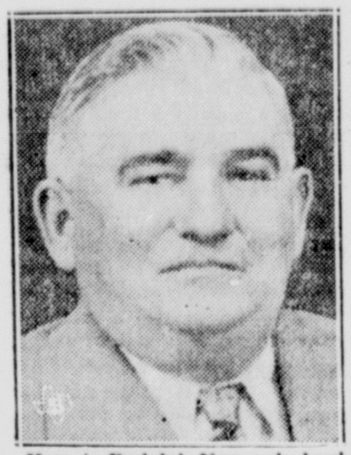
ANNUAL TRACK MEET SATURDAY

Shoots, Then Suicides



Here is Rudolph Nemecek, banker of West, Texas, who shot and wounded his nephew, John Nemecek, over a business misunderstanding, then killed himself, thinking that he had killed the nephew. The nephew is recovering from a slight neck wound.

CWA WORK QUOTA IS REDUCED TO 403 MEN

For the week beginning March 9, the quota for Milam county on Civil Works projects is 403 persons. The Administrator has had definite instructions that no more than the above number will be allowed to work, and that in making reductions those who apparently are least in need are to be taken off. This can only be determined by the careful study of case records which are in the office.

All projects in Milam county have been cancelled with the exception of the office, the commodity distribution, Ledbetter Park, lateral roads in Precincts 1, 2 and 4, community sanitation, athletic field at Rockdale, work on the streams going through Rockdale, streets of Thorndale, paint and repair of Cameron school, rodent control and the river drainage on the lower portion of Little River. All these projects will have a reduced number of persons working this next week.

In connection with the community sanitation, the Administrator has been advised of the appointment of Miss Fay Peebles as county Health Nurse, and she is at the present time visiting various schools and giving lectures and taking the census of those who have not been immunized against diphtheria, typhoid and small pox.

It is the intention of the government, in cooperation with the state to care for all needy persons who cannot be used on the farm or in public channels. However, a very careful investigation of each case is demanded before relief is extended. No relief will be given in the form of cash, but necessities of life will be provided for those who are poverty stricken by issuing disbursing orders for various commodities.

A shipment of cured meat and butter was received in this county last week, a large amount of which has already been given to those who are on relief rolls and some of those who are working on C. W. A. Projects.

JESSE JAMES SEEKING 2ND LEGISLATIVE TERM

To the People of 65th District:

Responding to the many inquiries that have been made, I hereby submit to my friends, the people of the 65th Flotorial District of Texas, my candidacy for re-election to the House of Representatives. In submitting my candidacy I do not lay claim to a record without error. A Democratic government is founded upon the hypothesis that ultimately all power is lodged within the people, and people are unfortunately subject to all the errors and mistakes that are characteristic of humanity.

I have always measured my conception of representative in terms of honesty and conscientious endeavors to truthfully represent the best interests of this State and district in the legiative halls of Texas. To that end I have labored unceasingly as a member of the 43rd Legislature and to the furtherance of that end I here rededicate myself to a program of honest endeavor and hard work in the interest of the people of Milam, Lee and Burleson Counties.

As a member of the 43rd Legislature, I was constantly opposed to the levying of additional taxes, particularly a sales tax for the reason that in its final analysis this tax imposed additional burden upon the class of people least able to bear it. I have not yet brought myself to the belief that the necessities of life, the actual links which bind us to existance, should be further hazarded by

Dazzling Musical Extravaganza Produced In "Flying Down To Rio," Opening At Cameron Theatre On Sunday March 11th

Behold now a new style of spectacular musical motion pictures launched in Hollywood. Bristling with novelties, glamor and lavishness, studded with brilliant all-star performers, set in a new, exotic locale, and enlivened by 200 dancing girls picked from a roster of 10,000 candidates, RKO-Radio' Pictures' musical "Flying Down to Rio" hits a new high peak in entertainment with a basic innovation of an extravagance enacted in midair on high powered biplanes, opening for a three day engagement at Cameron Theatre Sunday March 11, and Tuesday and Wednesday, March 12 and 13.

This elaborate show demonstrates just what can be done when a brilliant idea is carried through from inception to product.

"Flying Down to Rio," comes as the first aerial musical show ever staged, was conceived and produced by Lou Brock.

Nineteen years ago, in 1914, the idea for the picture was born, when aviation was in its infancy, comparatively, and talking pictures were undreamed of. Brock was in Rio de Janerio at the time, supervising the introduction of motion pictures. Impressed with the exotic beauty of the Brazilian capital he determined some day to make a movie there, exploiting Rio's romance, architecture, scenic beauty, novel music and dances.

Through the years the original idea grew and took definite form as aviation progressed and pictures improved, until finally, early in 1933 the inspiration assumed definite, tangible form as an aerial movie

Mr. Hughes, a candidate for the first time for this office in 1932 lacked only a few votes winning the nomination, having carried the city of Cameron by a large majority and his vote in general in all communities in the county was most gratifying to his friends and neighbors. In making his announcement for this office again in the primaries of 1934, Mr. Hughes requests that his sincere thanks be extended to all those who voted for him in 1932 and he asks them to do so again in 1934 and appeals to others to give him their support and help him in the race.

Mr. Hughes enjoys the confidence of his neighbors and it was the source of much gratification to him and his supporters that in communities where he has lived and work-

JAMES

the levying of additional taxes. In the 44th Legislature I shall continue my opposition to tax measures.

At all times I have given listening ear to the voice of the laborer and have voted consistently to further the laborer's interest, believing that the government should function for the majority of the people rather than the majority of the capital.

Numerous constitutional amendments were submitted by the 43rd Legislature, chief among which was the amendment to reclassify personal property for purpose of taxation, in order that the State might secure some revenue from intangible securities held outside the State and, thereby, reduce in part the Texas ad-valorem. The limits of space necessarily require that these amendments be discussed in detail. I take occasion, however, to state that I supported the amendment proposing to abolish the fee system, since it has many ills and flagrant violations that have become apparent to all people.

During the progress of my campaign, I shall from time to time discuss further activities of the 43rd Legislature. I shall also submit my views upon problems to conform the 44th, but in view of the fact that the 43rd Legislature is still in office, I deem such discussion at this time inexpedient. As your representative, I again pledge myself to support your interests to better your government, and, if possible, to make your state a more desirable place in which to live. Finally, this means a greater Texas and we may, by cooperation, attain that end.

As a concluding statement I again call your attention to the apparent continuance of a financial depression; a lack of money sensibly requires a decrease in expenditures. The 43rd Legislature submitted the lowest appropriation bill in the history of our state during the last decade, and yet maintained in full every efficiency organization within its machnery. We may rightfully acclaim to this accomplishment as the most singular of the recent session.

It is a well taken axiom of logic that the longer one serves the more efficient servant one may make. I do not propose by this statement to offer to perpetuate myself in public office. I seek only to submit, that, by virtue of my service during the 43rd Legislature, I shall be prepared to serve you better during the 44th Legislature. As a member of the 43rd Legislature I was honored with membership on the Appropriation Committee, the Revenue and Taxation Committee. I was Chairman of the Labor Committee and a member of the Health Committee. If re-elected to the 44th Legislature, I shall of course, as a member of these committees, be in a poition to deal in your behalf with the most important problems to confront the law-making body.

I now dedicate myself to the proposition that you are entitled to honest, earnest, and untiring representation and reassuring you of my confidence in the destiny of my State and of my concern or the welfare of my people, I respectfully seek your support as a candidate for re-election.

Respectfully,
JESSE JAMES.

ed as an educator the people gave him loyal support.

For many years Mr. Hughes has been teaching schools in Milam county and at present is superintendent of schools at Ad Hall. He feels that his experience in this field of work gives him many essential qualifications for holding the office he now seeks. He would consider it a privilege and a pleasure to at all times give the benefit of that experience to the promotion of better school facilities for the county whenever opportunity presents.

In addition to these qualifications, Mr. Hughes has been a close student of county business and by reason of his business ability in making a success of his own affairs, would be able to give much valuable co-operation and work to the affairs of the county. He considers the office of county judge an important business responsibility and would apply business methods to the affairs of the county in co-operation with the Commissioners and would guard at all times the interests of the tax payers.

Mr. Hughes is a loyal Democrat and his life as a citizen is an open book to all men and his friends welcome the opportunity to lend their support to one who possesses ideal qualifications for this office. From time to time he will discuss with the people his campaign and the service he proposes to render in this office.

His announcement at this time will be received with interest by hundreds who have urged his candidacy again this year. He is most mindful of this tender of support and sends his greetings to friends and neighbors all over the county and asks them to len dtheir support assuring each one that anything they may do in his behalf will be greatly appreciated.

He plans to make an active campaign and discuss with voters the problems of their government and how he proposes to be of service. Your vote and support will be greatly appreciated and he pledges in advance to return to the people in service a record commensurate with the responsibilities and trust of the office to which he aspires.

Miss Maurine Duncum of San Antonio, visited in the Duncum home for the week end.

MARCH 17 LAST DAY TO REDUCE CORN AND HOGS

Word that Saturday March 17th has been appointed as the last day to sign up in Texas for the corn-hog campaign has been received by Geo. Banzhaf, county agent for this county, from E. M. Regenbrecht, Extension Swine Specialist. Ten thousand nine hundred and fifty signed contracts were already in the offices of the county agents of Texas on February 24 according to incomplete reports from 121 counties. Contract signing has been going on as fast as it could be taken care of by the agents who have been more free to accept contracts since the heaviest of the cotton work is now out of the way, Mr. Regenbrecht stated in his letter to Mr. Banzhaf. But unless a good many farmers get in ahead of the last sign-up day, March 17 is likely to be a rush day in county agents' offices all over the state.

Reports from Washington indicates that 450,000 contracts have been signed in the corn belt alone where great interest is being taken in this effort of the Government to reduce production and raise prices for the farmer's main cash crops. Iowa holds the lead with 140,000 contracts E. M. Regenbrecht said.

No particular effort has been made to push the signing of the corn-hog contracts in Milam county, the county agent said, but the fact that this is one of the most liberal contracts that has ever been offered the farmer has acted as an incentive and farmers alive to their own interest as well as eager to cooperate with the Secretary's program for the benefit of agriculture as a whole have come in on ther own initiative and signed up 110 contracts affecting 1,000 acres of corn and 2500 hogs.

GEO. BANZHAF,
County Agent.

PUBLIC HEALTH NURSE FOR COUNTY NAMED

Miss Fae Peebles of Lexington, a graduate of the Cameron Hospital, has been appointed public health nurse for Milam county.

She received her appointment two weeks ago and has begun her work, the first of which is to check up on immunization resulting from recent vaccinations for small pox, diptheria and typhoid conducted by Dr. W. R. Newton, county health officer.

Miss Peebles will also visit schools to make talks on health and sanitation.

She will work in co-operation with Dr. Newton and J. B. Walker, administrator for health work under CWA.

C. C. Taylor who recently underwent an operation in the Cameron Hospital is much improved and has been taken to his home.

Mrs. W. J. Woods of McKinney, who is a patient in the Cameron Hospital for a week, is now improving and has been taken to the home of a sister, Mrs. S. W. Cheeves. Mrs. Woods formerly was Miss Dahlia Stewart before her marriage.

Lady Took Cardui And Got Rid of Pain In Her Side

"Last summer, my health was bad, so I began taking Cardui," writes Mrs. H. E. Slaughter, of Norman, Okla. "My mother had given me Cardui in girlhood, so naturally I turned to it when I felt I needed it. I felt run-down and a general weakness. I had bad, dizzy headaches when everything would seem to dance before my eyes. My right side pained me so much, but since taking Cardui the pain has left me. I have taken several bottles of Cardui and have improved a great deal."

Cardui is sold at drug stores here.

Why Liquid Laxatives Do You No Harm

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. *Nor will a mild liquid laxative irritate the kidneys.*

The right liquid laxative will bring a perfect movement, and with no discomfort at the time, or afterward.

The wrong cathartic may often do more harm than good.

An approved liquid laxative (one which is most widely used for both adults and children) is Dr. Caldwell's Syrup Pepsin, a prescription. It is perfectly *safe*. Its laxative action is based on senna—a *natural* laxative. The bowels will not become dependent on this form of help, as they may do in the case of cathartics containing mineral drugs. Ask your druggist for Dr. Caldwell's Syrup Pepsin. Member N. R. A.

LEGION

(Continued from page 1)

ism program of the American Legion.

Now our schools are being attacked by a dangerous enemy—an enemy which seeks to tamper with the education of our coming generation. The Post Education Committee will meet and consider the educational situation in this community; it will confer with the superintendent of schools and boards of education to find out ways in which it can help; the members of the committee will make themselves familiar with conditions in the schools; the committee will become most active in developing public sentiment behind a worthy educational program; meet with other organizations that are interested in the advancement of our schools; make public information concerning the general condition of our schools in our community, state and nation.

Cold Facts Regarding the Serious Condition of our Schools

The school budget of the nation has been reduced by about $378,000,000 a year, and this when enrollments have increased more than a million since 1930.

Approximately 3,000,000 American children are without educational opportunity, mostly from the effects of poverty and the slashing of educational budgets.

More than 20,000 schools, affecting more than 1,000,000 children, will have terms shorter than six months this year.

More than 2,000 rural schools failed to open this year even for one day.

More than 400,000 school children are improperly housed in school buildings.

There are about 300,000 fewer teachers at work this year. One teacher out of every six will receive less than $450 for school term, and in many cases teachers' salaries are being deferred.

What we put in the schools today will come out in the national life tomorrow. The school is the House of the People. Let us use that house to rear a generation of young people worthy of the great traditions of America.

Black-Draught

Clears Up Sluggish, Dull Feeling

"I have used Thedford's Black-Draught for constipation for a long time, and find it gives relief for this trouble," writes Mrs. Frank Champion, of Wynne, Ark. "I think it is good for spells caused from gas on the stomach. If I get up in the morning feeling dull and sluggish, a dose of Black-Draught taken three times a day will cause the feeling to pass away, and in a day or two I feel like a new person. After many years of use we would not exchange Black-Draught for any medicine."

P. S.—If you have CHILDREN, *give them the new, pleasant-tasting SYRUP of Thedford's Black-Draught.*

"JOHN CITIZEN WANTS A STREAMLINE MODEL"

The last few years have tried the temper but failed to change the temperament of America. The man out of work or living far below his former standard still feels that he will "get there." As in the past, the guidance of this bank will be a cheerfully given and received aid in "getting there."

LONGER WHEELBASE (117-INCH) • STARTERATOR • GAS-ELECTOR • CROSS-FLOW RADIATOR • FISHER NO DRAFT VENTILATION

GET A STRAIGHT EIGHT FOR YOUR MONEY!

GET A STRAIGHT 8 *because*

1. You can get a big, roomy Pontiac Straight Eight at a price that is very little more than that of the very cheapest cars. The smart new Fisher bodies are finer and more spacious. The improved Straight Eight engine gives you greater power and speed—full 84 h. p. and a top speed of 82 actual miles an hour!

2. Here is a car that gives you the inherent smoothness, the flexibility and the luxury of Straight Eight transportation at a price that compares favorably with the prices of many cars with less to offer in cylinders, performance and size. The new Pontiac, remember, is definitely in the low-price field!

3. Last year's famous Pontiac was known as the Economy Straight Eight because its fuel costs were well in line with those of sixes. Today's Pontiac, thanks to further refinements in its Straight Eight engine, gives you more miles to the gallon by a good 10 per cent. A bigger, faster, more powerful car with *remarkable economy!*

4. The trend today is toward Straight Eights. The Pontiac Straight Eight for 1934 will depreciate more slowly, and all evidence indicates a higher resale value "at the end of the road," just because it *is* a Straight Eight. Another important reason why this great, new Pontiac is such a wise investment!

5. If your present car will make the down payment on a car of cheaper make, it will probably make the down payment on a big, new Pontiac. Your monthly payments, in any case, will be but a few dollars more. Why wait? See and drive the big, new Pontiac today. Get a Straight Eight for your money!

CORINTH HOME DEMONSTRATION CLUB

There was an interesting reading given by Mrs. Harris on how to teach the child to read by allowing him to choose his books and reading with him—in this way you can lead him to read what you wish him to read.

Many things were discussed and the songs for the rally were practiced when the Corinth Home Demonstration Club met in the home of Mrs. J. A. Walschak. Mrs. H. A. Kuzel, vice president, presided in the absence of the president, Mrs. J. D. Lewis.

The hostess served cake and cocoa to ten members.

The next meeting will be held at the school house building on March 12.

Thousands of people who can afford to spend two or three times as much for a car, are today choosing the Ford V-8 for 1934, instead. Here are some of the reasons:

POWER: The Ford V-8 for 1934 gives you better than 80 miles per hour with the quicker acceleration and greater smoothness of an 8-cylinder motor. Power has actually been increased by 12 per cent over last year's model.

COMFORT: The Ford V-8 for 1934 offers more actual body room than any other cars that cost considerably more. It offers you new Clear-Vision Ventilation, with the window in one piece. It offers you free action for all four wheels—plus the comfort of Ford Cantilever Springs and the proved safety of a front axle.

SAFETY: With the Ford V-8 you get an all-steel body, safety glass, welded steel-spoke wheels, exceptional low center of gravity and more braking surface per pound of weight than any other American-made car we know of.

ECONOMY: Gasoline economy is increased by two or three miles per gallon with the new Ford V-8. Test runs show that the new engine will give 20 miles per gallon at 45 miles per hour.

Before you buy any car at any price, see and drive the Ford V-8 for 1934. See your nearest dealer.

Court Costs Play Havoc With Funds Texas Tax Payers

Trial of small civil suits often involve considerably more in costs to tax payers than asked for by litigants.

In a recent small suit originating in justice court here the appelant asked for $50 in damages. The case was twice tried in Justice Court and was lost by the party who entered the suit. Appeal was taken to County court and there lost again.

An approximate total of costs involved to tax payers and litigants was around $100 or twice the amount of damages asked for. The major part went for jury service all of which is paid out of public funds. The actual court costs in fees and otherwise must be added to attorney's fees on both sides to get an accurate picture of what litigation in small cases are costing.

50 Walnut Trees In List Of Settings By Club Worker

A unique piece of community improvement has been done by Mrs. D. H. Mrs. Sanford was the 1933 yard demonstrator for the club, and as a result of this work she now has a well planned and planted farm home. And it is through her efforts that many other than club members' homes have been improved.

In Our Show Window Appears This Symbol

℞

This symbol ℞ appears on every prescription that your Doctor writes and has remained a custom from the ancient days to the present time. The heading ℞ appearing on your prescriptions is an abbreviation of the word recipe (Take)—the imperative of the Latin verb recipio.

The use of the inclined stroke upon the tail of the ℞ is traced to a custom common in the ancient days of superstition of placing at the top of the prescription an abbreviation, called an "invocation" which represented a prayer to a favorite Deity.

We display the symbol ℞ with this explanation, for it symbolizes our drug store as a Prescription Pharmacy.

For 43 years the prescription department has been the corner stone of this business, during which time we have maintained the standard—the quality at all times has been the best obtainable—the number of prescriptions compounded runs into hundreds of thousands, and none other than capable Registered Pharmacists have been here to serve you.

In time of sickness and distress you need the services of the Pharmacist. Your State (for your protection) now requires that he be a Graduate of Pharmacy and in addition thereto pass the Texas State Board of Pharmacy before becoming eligible to compound your prescriptions.

Use this drug store if you appreciate this kind of service.
